Is it suitable for text, buttons, or backgrounds	#000000 is a great dark shade. Is it suitable for text, buttons, or backgrounds

Usage of #00A86B

Recommendations for light backgrounds in respect of a good contrast.

- Usage for Text: recommended
- Usage for headings: recommended
- Usage as fill color: use with caution on large areas
- Usage for buttons: recommended

As a rather dark shade, this color can very well be used to color smaller elements (like text and buttons). Due to its darkness it gives good contrast, also if used on white background. Readability of text is perfectly ok.

Usage of #F08112

Recommendations for light backgrounds in respect of a good contrast.

- Usage for Text: not recommended (low contrast)
- Usage for headings: not recommended (low contrast)
- Usage as fill color: recommended
- Usage for buttons: switch out for enough contrast

As a rather light shade, this color can very well be used as a fill/background, also to bigger elements. If there is no obvious reason, we do not recommend using it as text-color on white background (low contrast gives bad accessibility ratings). Some usage-examples for #F08112.

Usage of #4D4B4A

Recommendations for light backgrounds in respect of a good contrast.

- Usage for Text: recommended
- Usage for headings: recommended
- Usage as fill color: use with caution on large areas
- Usage for buttons: recommended

As a rather dark shade, this color can very well be used to color smaller elements (like text and buttons). Due to its darkness it gives good contrast, also if used on white background. Readability of text is perfectly ok.

Usage of #000000

Recommendations for light backgrounds in respect of a good contrast.

- Usage for Text: recommended
- Usage for headings: recommended
- Usage as fill color: use with caution on large areas
- Usage for buttons: recommended

As a rather dark shade, this color can very well be used to color smaller elements (like text and buttons). Due to its darkness it gives good contrast, also if used on white background. Readability of text is perfectly ok.
